***Clouds Moon Fence***, 2023, acrylic on canvas, 40x30in.

*Deftly manipulating layers of images as vastly different as teapots, birds, and landscapes in multiple media including acrylic, liquid graphite and India ink on canvas or translucent archival plastic surfaces, Strasen takes viewers on a journey of perception where we wander through another Eden and discover our place in the world with shifting changes of scale. Her perennial focus is in finding unexpected visual connections and in so doing, discovering new relationships between them.*

*Ladder Landscape*, 2022-23, acrylic on canvas, 48x48 in.
